

NEUROFIBROMATOSIS^a

Editors and Conference Organizers

ALLAN E. RUBENSTEIN, RICHARD P. BUNGE, and DAVID E. HOUSMAN

CONTENTS

Part I. Introduction to the Problem of Neurofibromatosis

Neurofibromatosis: A Review of the Clinical Problem. <i>By</i> ALLAN E. RUBENSTEIN	1
The Malformative Central Nervous System Lesions in the Central and Peripheral Forms of Neurofibromatosis: A Neuropathological Study of 22 Cases. <i>By</i> L. J. RUBINSTEIN	14
On the Natural History of von Recklinghausen Neurofibromatosis. <i>By</i> SVEN ASGER SØRENSEN, JOHN J. MULVIHILL, and ARNE NIELSEN	30
Neurofibromatosis: A Genetic Epidemiologist's Point of View. <i>By</i> JOHN J. MULVIHILL	38
The Genetic Aspects of Neurofibromatosis. <i>By</i> JOHN C. CAREY, BONNIE J. BATY, JOHN P. JOHNSON, TRUDI MORRISON, MARK SKOLNICK, and JANE KIVLIN	45
Neurofibromatosis and Cancer. <i>By</i> JUDITH L. BADER	57

Part II. Neural Growth Factors and Neural Crest Development in Neurofibromatosis

Investigations on the Neural Crest: Methodological Aspects and Recent Advances. <i>By</i> NICHOLE M. LE DOUARIN	66
Sympathetic Neuronal Density and Cell Membrane Contact Regulate Phenotypic Expression in Culture. <i>By</i> IRA B. BLACK and JOSHUA E. ADLER	87

^aThis volume is the result of a conference entitled Neurofibromatosis held from May 22 to May 24, 1985 in New York, N.Y., sponsored by The New York Academy of Sciences and through a special grant from the National Neurofibromatosis Foundation.

Molecular and Immunocytochemical Studies of Neurofibromas and Related Cell Types. <i>By</i> JOHN E. PINTAR, KENNETH H. SONNENFELD, JOHN FISHER, ROBYN S. KLEIN, and BARBARA KREIDER	96
Nerve Growth Factor Binding to Cells Derived from Neurofibromas. <i>By</i> KENNETH H. SONNENFELD, PAULETTE BERND, ALLAN E. RUBENSTEIN, and GEN SOBUE	107
The Nerve Growth Factor Receptor in Normal and Transformed Neural Crest Cells. <i>By</i> ALONZO H. ROSS, MEENHARD HERLYN, GERD G. MAUL, HILARY KOPROWSKI, MARK BOTHWELL, MOSES CHAO, DAVID PLEASURE, and KENNETH H. SONNENFELD	115
Nerve Growth Factor Modification of the Ethylnitrosourea Model for Multiple Schwannomas. <i>By</i> STANLEY A. VINORES	124

Part III. The Schwann Cell in Neurofibromatosis

The Biology of Non-Myelin-Forming Schwann Cells. <i>By</i> RHONA MIRSKY and KRISTJÁN R. JESSEN	132
Pathology of Nerve Sheath Tumors. <i>By</i> JAMES C. HARKIN	147
Sulfated Proteoglycans Produced by Rat Dorsal Root Ganglion Cells. <i>By</i> DAVID J. CAREY, HEMLATA MEHTA, and MARK S. TODD	155
Schwann Cell Proliferation <i>In Vitro</i> : An Overview. <i>By</i> NANCY RATNER, RICHARD P. BUNGE, and LUIS GLASER	170
Influences of Peripheral Nerve Components on Axonal Growth. <i>By</i> P. M. RICHARDSON and R. J. RIOPELLE	182
Characterization of a Laminin-Containing Neurite-Promoting Factor and a Neuronotrophic Factor from Peripheral Nerve and Related Sources. <i>By</i> GEORGE E. DAVIS, MARSTON MANTHORPE, LAWRENCE R. WILLIAMS, and SILVIO VARON ..	194

Part IV. The Schwann Cell in Neurofibromatosis (continued)

Growth-Promoting Factors in Neurofibroma Crude Extracts. <i>By</i> VINCENT M. RICCARDI	206
Schwann-Like Cells Cultured from Human Dermal Neurofibromas: Immunohistological Identification and Response to Schwann Cell Mitogens. <i>By</i> DAVID PLEASURE, BARBARA KREIDER, GEN SOBUE, ALONZO H. ROSS, HILARY KOPROWSKI, KENNETH H. SONNENFELD, and ALLAN E. RUBENSTEIN	227
Linkage between Schwann Cell Extracellular Matrix Production and Ensheatment Function. <i>By</i> MARY BARTLETT BUNGE and RICHARD P. BUNGE	241

Basement Membrane Proteins Produced by Schwann Cells and in Neurofibromatosis. <i>By</i> MARIE DZIADEK, DAVID EDGAR, MATS PAULSSON, RUPERT TIMPL, and RAUL FLEISCHMAJER	248
Collagens in Neurofibromas and Neurofibroma Cell Cultures. <i>By</i> JUHA PELTONEN, RISTO PENTTINEN, HANNU LARJAVA, and HEIKKI J. AHO.....	260
Connective Tissue Biochemistry of Neurofibromas. <i>By</i> JOUNI UITTO, LOIS Y. MATSUOKA, MON-LI CHU, TAINA PIHLAJANIEMI, and DARWIN J. PROCKOP	271

Part V. Genetic Approaches to Neurofibromatosis

Genetic Linkage Analysis of Neurofibromatosis. <i>By</i> M. ANNE SPENCE, DILYS M. PARRY, JUDY L. BADER, MARY L. MARAZITA, MAUREEN BOCIAN, STEVE J. FUNDERBURK, JOHN J. MULVHILL, and ROBERT S. SPARKES.....	287
Parasexual Approaches to the Study of Human Genetic Disease. <i>By</i> TRACY GROSS LUGO, ROBIN J. LEACH, and R. E. K. FOURNIER	293
Genetic Linkage Analysis of Neurofibromatosis with DNA Markers. <i>By</i> B. R. SEIZINGER, R. E. TANZI, T. C. GILLIAM, J. L. BADER, D. M. PARRY, M. A. SPENCE, M. L. MARAZITA, K. GIBBONS, W. HOBBS, and J. F. GUSELLA.....	304
Linkage Analysis between the β -Nerve Growth Factor Gene and Other Chromosome 1p Markers and Disseminated Neurofibromatosis. <i>By</i> JOHN K. DARBY, KIM GOSLIN, VINCENT M. RICCARDI, SUSAN M. HUSON, ROBERT FERRELL, JUDY KIDD, BARND R. SEIZINGER, JAMEY FERRIER, ERIC M. SHOOTER, and LUIGI L. CAVALLI-SFORZA	311
Oncogene Expression in Neurofibromatosis. <i>By</i> PETER T. ROWLEY, BARBARA KOSCIOLEK, and JUDITH L. BADER	327
DNA Transfection Analysis of the Tumors of Neurofibromatosis. <i>By</i> LEE B. JACOBY and ROBERT L. MARTUZA	333
Sensitivity of Cultured Skin Fibroblasts from Patients with Neurofibromatosis to DNA-Damaging Agents. <i>By</i> WILLIAM G. WOODS, BRUCE MCKENZIE, MARY A. LETOURNEAU, and TIMOTHY D. BYRNE	336
Evidence against Linkage of von Recklinghausen Neurofibromatosis and Chromosome 19 Markers. <i>By</i> S. M. HUSON, A. L. MEREDITH, M. SARFARAZI, D. J. SHAW, D. BROOK, D. A. S. COMPSTON, and P. S. HARPER	349

Part VI. Biological Approaches to Neurofibromatosis

Cell Culture Studies on Neurofibromatosis (von Recklinghausen): Characterization of Cells Growing from Neurofibromas. <i>By</i> W. KRONE, R. MAO, O. S. MÜHLECK, H. KLING, and T. FINK ...	354
--	-----

Hormonal Modulation of Schwann Cell Tumors. I. The Effects of Estradiol and Tamoxifen on Methylnitrosourea-Induced Rat Schwann Cell Tumors. By JEFFREY R. JAY, DAVID T. MACLAUGHLIN, THOMAS M. BADGER, DOUGLAS C. MILLER, and ROBERT L. MARTUZA	371
Clinical Diagnosis of von Recklinghausen's Neurofibromatosis. By THOMAS B. FITZPATRICK and ROBERT L. MARTUZA.....	383
Neurofibromatosis in the Bicolor Damselfish (<i>Pomacentrus partitus</i>) as a Model of von Recklinghausen Neurofibromatosis. By MICHAEL C. SCHMALE, GEORGE T. HENSLEY, and LANNY R. UDEY.....	386
Enhanced Sensitivity of Skin Fibroblasts from Neurofibromatosis Patients to Transformation by the Kirsten Murine Sarcoma Virus: A Potential Laboratory Assay for Individuals at Risk of Cancer. By JACK W. FRANKEL, PASCUAL BIDOT, and LEVY KOPELOVICH	403
Index of Contributors	413

Funding for this conference was provided through a special grant from:

- THE NATIONAL NEUROFIBROMATOSIS FOUNDATION

The New York Academy of Sciences believes that it has a responsibility to provide an open forum for discussion of scientific questions. The positions taken by the participants in the reported conferences are their own and not necessarily those of The Academy. The Academy has no intent to influence legislation by providing such forums.
